Expert Care A Foundation for Recovery

Special Tree Certified Respiratory Therapists (RTs) are an essential part of the interdisciplinary team, and average less than 30 days to safely decannulate patients who meet the criteria, often a critical step in recovery.

“Getting off of the vent was a really important milestone.”

Comprehensive Respiratory Services

- Respiratory Therapy + Specialty Services
- 24/7 On-Site Care
- Ventilator Management + Weaning
- Pulmonary Rehabilitation
- Non-Invasive Ventilator Support (CPAP/BIPAP)
- Airway Maintenance
- Oxygen + Vest Therapy
- Cough Assist

24/7 ON-SITE RESPIRATORY THERAPY

Highly-skilled RTs provide full service care to patients with many levels of respiratory needs at the Special Tree NeuroCare Campus.
